Founder of

Syn Alia Training Systems

Presents

Recertification in

Bridge and Target Technique

SATS -

Syn Alia Training, Systems!!!

# SATS -

Solved problems, Accelerated Training, Success!!!

# Kayce develops

Training systems and trainers to do amazing things with animals

From healing their traumas and teaching them to cope successfully with life

To teaching them demanding and complicated tasks

To eliciting communication from them, engaging them in choice and collaboration

Some say it sounds 'crazy'

**SOME** say it sounds like what they want to do!

# Offering an online class

With optional live discussion calls

# Starting.....

Upon registration, at your convenience, from your own home or anywhere you can access [synalia.com](https://synalia.com)

With

Optional live discussion calls where we review video together, and discuss your training goals and projects (Mondays, 7-9 pm Eastern)

# Because ...

Training is more fun and more effective when the animal understands the task

And Bridge and Target makes it EASY for the trainer to explain behaviors to animals

Training this way makes it EASY to engage animals and elevate them to collaborators

Bridge and Target elevates training to teaching and performance

Because trainers, and animals, just want to have fun

# The Bridges!

## Terminal

Pinpoints the instant of success

Bridges gap from finish to food

Secondary reinforcer

Increases trainer significance

## Intermediate

Immediate and continuous feedback

Marks progress

Extends behavior without stopping it

Reinforcer (1° , 2° , 3°)

# The Target!

Pinpoints a critical location

Focuses the animal's attention

Foundation of all motion and most concept based behaviors

Forms a cooperative attitude

# Together, bridges and targets are like

Letters and punctuation -

allowing us to form words to  
make our meaning clear to  
others

Pencils & connect-the-dots -

allowing us to draw the  
behavior we need to  
communicate

Used together, we can describe almost anything

With **speed** and **joy**,

But...

**Without** luring

**Without** shaping

**Without** coercion

And virtually **without** error

# Bridge and Target Certified trainers!

Come home to visit and refresh your training!

Lots has happened since your certification, and there much more to harvest.

Catch this camp, catch up, and catch on fire!

We have the means to rewrite training as it has been known. We have the means to reinvent relationship with animals.

An extra day on Monday to just train and relax together. No cost for camp participants.

# Changes are coming for SATS B&T certified trainers

Need to update our skills, and our rosters

Need to assemble together to train and trade

Need to arm ourselves with additional, powerful tools

We have a wonderful place to meet, work, and BE, together.

# Bridge & Target Certification Camp Dec 4-8, 2019

Virginia Beach, VA at One Red Maple Farm

Accommodations on site (dorm style rooms)

Beautiful. Restful. Therapeutic. Exciting.

A chance to renew friendships. A chance to renew certification.

# Not just recertification and updating

Work on advanced Bridge and Target Training

Fluency

Pulsing

Touch-back targetting

Two - way communication - if skills allow

# Registration

Normally ~~\$2299.99~~, \$1000 for certified trainers. \$700 if you test and pass.

Online **class** only? Half price: **\$300**

Will cover SATS and the Family Dog seminar, with handouts! Expand your business offerings!

Message Kayce for details on registration or ???
